St MORITZ SKY

GREEN/DARK GREEN MIRROR LENS

Light weight and flexible Italian made frame with high contrast quality mirror sun lenses. The St Moritz Sky Performance sunglasses offers a high performing eyewear for runners, cyclists, skiers and other demanding activities.

Standard size frame with adjustable rubber nose pads for increased comfort and unisex fit.

Mirror lenses category 3 with anti-reflex coating offering clarity vision and 100% UV protection, protecting your eyes against harmful UVA and UVB rays. Anti-scratch and protective lenses with high-contrast.

The soft rubber end ear tips ease the grip and give you highest comfort without annoying pressure on the head.

The St Moritz Performance sunglass is made in Italy from Grilamid TR90, a material giving you unbeatable flexibility, low weight and excellent performance in any type of weather.

We are using a cylindrical mask in base 6 with anti-scratch CZ lenses made of unbreakable polycarbonate, a material 10 times more impact resistant than plastic or glass lenses, offering highest degree of protection.

Our process of the frame production is run by photovoltaic energy and water-based paint developed from the Italian lake "Lago Maggiore".
